## **ABOUT US**

Imani Home Nursing Services is a Private Nursing Practice that specializes in taking care of people in need of nursing care at home, post hospitalization or rehabilitation, and the elderly that became frail.

The Chief Nursing Services Manager, Sr. Jolanda Janse van Noordwyk, qualified in 1986 as a Registered Nurse with qualifications such as General Nursing, Midwifery, Infection Prevention Nursing, Occupational Health Care, HIV Counsellor, Entero-stomal Therapy, and Advanced Wound Care. All staff working under her direct supervision are also registered with the South African Nursing Council.

We take pride in the relationships we have with our valued patients, our efficient service, and the quality of our people.

### **Will my medical aid pay?**

Payment by your medical aid depends on the rules of your medical aid, and your specific benefit plan.

Most medical aids will not pay for frail care. There are some medical aids that will pay for rehabilitation after accidents and post-operative procedures, as well as certain medical conditions.

We are registered with BHF, and our practice number is recognized by all medical aids.

### **How to go about getting payment?**

Get a motivation from your/ the patient's Medical Doctor with a full history and ICD 10 codes.

Provide us with the letter and necessary information in order to do a Nursing Assessment, and to prepare and provide you with a quotation to present to your medical aid. They will provide you with an Authorization number when the home nursing request is approved. Please initiate this procedure at least 7 -10 days before discharge from hospital, or as soon as possible. We will then assist you from here on moving forward.

### **Affordability**

Should your medical aid not authorize payment, or you know that the rules of your scheme do not allow home nursing, or you do not have a medical aid, please contact us so we can still do a Nursing Assessment at cost, which will not exceed tariffs as indicated by the Board of Health Funders.

This assessment fee will be a once off only and follow up visits will be quoted on for your approval first.

Please get a letter from your doctor - this serves as a prescription of nursing activities your doctor expects to occur at home.
